SSA Program Title: **Other - Not Specified**

Issue Being Appealed: **Other**

Reason for Appeal: **the figures are clearly wrong for various years and a substantial amount of my income is in correctly listed or not at all on my social security statement. I sent proof that the City of New York was missing \$86,779.00 in income from 1985-1990, by sending in PPCQ reports from that government employer, but the Social Security Administration is refusing to credit it. Social Security is coming up with its own figures instead. I want all of my total income from New York credited to my statement. I mailed the originals in the mail and the SSA responded and this is my appeal.**
